

Template for Honors 10 Summer Assignment Journal

Use the following template as a guide for the information you provide in each of the chapter journals you write for *How to Read Literature Like a Professor*. Each journal will be approximately ½ page or so if you are “free handing” it with each component clearly labeled and separated.

Chapter Title _____

Main ideas of chapter, supporting points (bullet, phrase form)	Examples author uses to make his point

Where have *you* seen this before? In literature, plays, movies, television? Provide 1-2 examples and brief **explanation** of relevance or connection; simply listing titles will not earn credit. Also, don't go for the literal (i.e. "*Twilight* has vampires in it" will NOT do for an example or an explanation!) Do not use the examples he gives.
